

ANÀSTASI

Aglianico del Taburno

Denominazione di Origine Controllata e Garantita

Grape varieties & production area:

90% Aglianico. The old espalier-trained vineyards are located at 300m above sea level, with a southwest exposure, on calcareous soil of alluvial origin in the Taburno subzone. The planting density is on average 2500 vines per hectare, with a production of 2.4 kg per plant, which limits the maximum grape yield to 60q/ha. The grape blend includes a maximum of 10% of other native red grape varieties (piedirosso and sciasinoso).

Tasting notes:

It has an intense ruby-red colour with purplish highlights and a soft and well-orchestrated body, with a mature tannic component and slight astringency. The fine and lingering taste is devoid of bitter components. The nose offers up intense aromas of fruit in alcohol, sour cherries and blackberries, accompanied by hints of vanilla and chocolate.

Harvest & production technique:

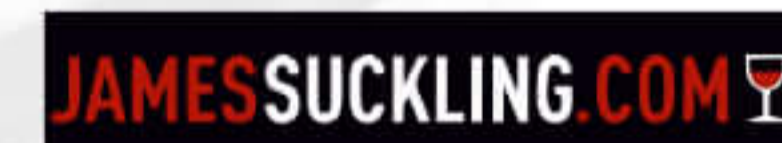

The grapes are hand-picked in crates at the end of October, when fully ripe. Destemming is followed by fermentation and maceration under temperature control for two weeks. Extraction is done by alternating délestage and pumping over, then the wine is raked, soft pressed and collected in a tank. It is immediately transferred to second-use barriques for malolactic fermentation, then raked into new barriques and lastly mid-sized casks for 12 months of wood ageing. The product finally goes into steel tanks for further maturation, then bottled and stored in stacks for long maturation.

Serving temperature:

Serve at 18°/20°C.

Food pairings:

It is ideal with elaborate dishes, red meat and mature cheese.

OCONE AGLIANICO DEL
TABURNO ANÀSTASI 2011

Pretty aromas of blue fruits with hints of flowers and sandalwood. Medium to full body, firm and silky tannins and a light vanilla and berry aftertaste. Still fresh. Drink now.
